In a groundbreaking partnership with Empower New Energy, Powercell Limited, and Huawei, Justrite Superstores proudly announces the commissioning of an innovative rooftop solar photovoltaic (PV) plant and battery energy storage system (BESS). This pioneering project represents a significant investment of \$6.5 million, fully financed by Empower New Energy.

The official inauguration ceremony was graced by His Excellency Mr. Svein Baera, the Norwegian Ambassador to Nigeria, alongside Dr. Joseph Onoja, Director General of the Nigerian Conservation Foundation, represented by Mr. Ayodele Alamu. Distinguished guests from the Lagos state government and the private sector were also in attendance.

The commissioned systems include solar PV and battery storage at two of Justrite's retail locations in Lagos State: Abule Egba and Ikorodu. The Abule Egba site features a 270 kWp solar installation paired with a 600 kWh battery system, while the Ikorodu site boasts a 400 kWp solar array and an 800 kWh battery storage
