The small wind turbine manufacturing industry significantly contributes to the renewable energy sector. Companies in this field mainly design, construct and supply small wind turbines which are used primarily for decentralised production, supplying power to small businesses, farms, and homes. The key players in this sector, such as Inox Wind Ltd. and Sinovel Wind Group Co., Ltd., offer highly efficient, reliable and resilient wind turbines. The industry is undergoing a dynamic transformation driven by advances in technology, supportive government policies and a growing interest in greener, self-sufficient energy sources which indicate a future of increased growth and innovation.
