Any browser base on Webkit/Chromium engines (Opera, Samsung internet, UCBrowser, etc).

Our fixed tariffs come with 100% renewable electricity, and you can combine this with a solar and battery package to help you lower your carbon footprint.

We have both variable and fixed tariffs, ensuring we can offer value and flexibility when possible. Our fixed rate tariffs and export tariff will always be among the best value in the UK market.

We're rated Great on Trustpilot because we believe in great customer service. And we're thrilled to receive a Top 3 Overall Customer Satisfaction Award from USwitch in 2024.

So Energy is a renewable energy supplier founded in 2015 with a focus on offering 100% green electricity at a better price and service to traditional big suppliers, and are one of only three suppliers ever to be Which? recommended. Backed by Ireland's largest energy company, ESB, So Energy is one of the last remaining challenger suppliers in the market.

From solar panel systems and heat pumps, to letting customers choose how they source their renewable energy, So Energy does more than just supply over 300,000 homes across the UK- they help people reduce their environmental impact and live more sustainably.

We recently bought a majority shareholding of another energy supplier, So Energy.

So Energy is an award winning supplier

So Energy is an award-winning supplier of 100% renewable electricity as standard. They're committed to enabling customers to reduce their environmental impact and achieve energy independence by offering accessible and affordable routes to net zero living.

Thanks in no small part to stellar customer service, So Energy has been a Which? Recommended supplier, a Citizens Advice top supplier and uSwitch supplier of the year. We're confident that we've joined forces with the right company for you.

So Energy supplies gas and 100% renewable electricity to UK homes. Their mission is to provide great value renewable energy with simple, clear and outstanding service.

With their low price commitment, So Energy ensures their tariff is always amongst the cheapest 10% of tariffs available. They are the only energy supplier who let their customers decide where their renewable electricity is
