Solar energy jobs port moresby

Papua New Guinea is an excellent destination for businesses looking to expand globally. It has the largest economy in the Pacific Islands and provides significant investment and trade opportunities.

The country's key investment prospects lie in the development of infrastructure and its abundant natural resources in forestry, oil and gas, fisheries, and mining. This is the perfect time to find PNG jobs and Airswift can help you secure these roles.

We are a leading engineering recruitment agency and have provided technical staffing and employment services to several major projects within Oil & Gas, Construction and Mining.

Airswift can help you secure the best jobs in PNG. If you are looking for PNG jobs, please register on our candidate portal.

If you're an employer or hiring manager looking to recruit PNG specialists, we can help.

We'll handle all HR responsibilities, such as background checks, contract negotiations, payroll, and global employment.
