Home > News Articles > 6 Solar Projects Driving Angolan Electrification

Angola has set a target of 60% access to electricity by 2025 under the strategic plan "Visao 2025"; of which solar is poised to play a central role. Supporting electrification as well as diversification, solar projects are being rolled out by the government alongside international partners and project developers.

Masdar to Build 150 MW Solar Project

An agreement for the development of a 150 MW solar plant was signed between Angola's Ministry of Energy and Water and UAE-based renewable energy company Masdar in Dubai last December. The 150 MW project will produce electricity to power 90,000 homes, contributing to job creation, emissions reduction and efforts to increase national electrification.

Standard Chartered Commits \$1.44B Towards Solar

Angola's Ministry of Finance secured \$1.44 billion in financing from multinational bank Standard Chartered in July 2023 to fund the deployment of 48 solar PV systems nationwide. The projects will be installed in the Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje provinces, adding 296 MW of solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

\$900M Injected Funding into 500 MW Project

An agreement for the provision of \$900 million in funding to support the implementation of the Angola Solar Energy Project was reached between Angola's Ministry of Energy and Water and the U.S. Export-Import Bank in June 2023. The project will include the installation of two solar PV facilities with a combined capacity of 500 MW while boosting Angola's employment opportunities with the creation of 1,600 jobs. The initiative also strengthens cooperation between Angola and the U.S. regarding the exchange and trade of goods and services including solar panels, switches and building equipment. Clean energy firms AfricaGlobal Schaffer and SunAfrica are constructing the projects.

Luena Project Progresses

The 26,906 MW Luena Solar Energy Park is expected to start operations in 2024. Located in Moxico

Solar energy policy angola

province, the \$39.1 million project will comprise 42,560 solar panels and will be operated by state utility Empresa P?blica de Produ??o de Electricidade. The project reached 60% completion in April 2023.

Caraculo Project Inaugurated
