

Solar generator with 30 amp rv outlet

Solar generator with 30 amp rv outlet

Shopping for the best solar generator for your RV or motorhome? You've come to ...

Setting the bar for professional power stations. The B4000 doesn't just deliver extremely high output, it does so with a class-leading power-to-weight ratio. Thanks to solid-state technology, it provides more power per pound than any other power station--and it's safer, too. With 4,000 watts on tap, it's perfect for home backup and even includes a 30-amp RV outlet for recreational use. And despite its capacity, it can charge from 0-80% in just over an hour.

The next generation of power is here with the B4000's advanced solid-state lithium battery, offering enhanced safety, stability, and performance for all your charging needs.

Introducing our sleek solid-state portable power station, designed for easy portability. With its ergonomic, lightweight build and aluminum soft-grip handles, it's perfect for reliable power wherever your adventure takes you.

Advanced GaN (Gallium Nitride) based transistors operate with greater efficiency than their traditional silicon counterparts.

The B4000 is built to last, with a 5 year warranty and ETL certification that ensure its quality, reliability, and compliance with industry standards.

Transform the solid-state portable power station into an eco-friendly solar generator with optional Yoshino solar panels. Effortlessly recharge and enjoy limitless power, all while embracing sustainable energy solutions.

Embark on RV adventures with unparalleled power using the Yoshino B4000 SST. With its TT-30R outlet, this portable power station provides abundant electricity, making your journey comfortable and convenient.

Experience reliable, worry-free renewable energy with our durable and water-resistant solar panels that withstand the elements and keep generating power in any outdoor environment. These solar panels feature an IP67-rating and an ETFE lamination.

From camping trips to outdoor events and emergency situations, this power station has you covered. With its portable design and versatile charging options, the B4000 is the perfect companion for all your outdoor activities.

The B4000 lets you charge your power station using three different methods. Simultaneously power your devices while you recharge using either AC power, DC power, or solar panels. Whether you're at home, on

Solar generator with 30 amp rv outlet

the road, or outdoors, you can power up your way and stay connected.

The B4000 is designed to power up all your devices with ease and efficiency. With multiple ports, including two USB-C ports and two wireless charging pads, you can charge a wide range of devices simultaneously.
