Supreme Solar 500 Ltr Classic Glass Lined are Suitable for bore well & soft water, and this system is meticulously designed to withstand hard water conditions up to 1500 TDS, delivering clean water directly to your tank without the need for filters or softeners. These systems boast three layers of ETC (Electro-Glass Tube) as the solar collector.

Supreme Solar 500 ltr Classic Glass Lined consists of tubes which are exceptionally efficient at capturing sunlight and converting it into heat.

Supreme Solar 500 Ltr Classic tanks are insulated with 2.5-inch Puff insulation in Supreme Solar 500 liter Classic Glass Lined ensures that the water stays hot for over 36 hours, allowing you to use today’s hot water tomorrow without any heat loss.

The entire system is constructed from Powder Coated material for rust protection, with Supreme also offering full steel models that include a steel structure. This product also comes with various models to choose from Full Steel Structure to Steel outer tanks for extra protection from all weather conditions.
