Exide Solar is India's largest solar company, offering the most comprehensive range of solar panel, solar battery, solar inverter and solar home lights at a very economic price in India. It has introduced a cutting-edge line of photovoltaic products. Apart from serving the domestic market, the company exports batteries which have captured niches in South East Asian and European markets.

The solar division of Exide is a wholly owned subsidiary of Exide Industries Limited, a leading manufacturer of technologically advanced solar products in India. It is an MNRE (Ministry of New & Renewable Energy, Govt of India) approved system integrator & channel partner in India.

Exide Solar manufactures a wide range of high-quality solar products, so it's worth spending 10 minutes reading this information and selecting the best capacity solar products to meet all of your needs

Exide solar panels are advanced technology solar panels made with high-quality materials to ensure long-term performance. The company has introduced a complete range of both polycrystalline and monocrystalline solar panels to provide a one-stop solution to its customers.

Solar panels are the most important component of any solar system that play a major role in their performance.
