

# Solar panel production line machinery

Solar panel production line machinery

How to make solar panels? and how to start up a solar panel manufacturing factory?

We provide solar panel making machines, solar panel assembly line, solar panel manufacturing equipment, which includes solar cell tabber stringer, solar strings bussing machine, full auto layup machine, full auto EL tester, and solar panel laminator, solar panel tester, solar panel framing machine and junction welding machine, ODM and OEM directly from factory.

Sharing the latest solar panel manufacturing technology, from 166 182 210 half-cut panels up to 800watt panels, and 1/3 or 1/8 shingled solar cell panels. We have full factory layout solutions from CAD design to 3D simulations.

Thank you sir your valuable supports Niraj Fom India First, I really want to thank you so much, you are a wonderful and very beautiful girl.

Secondly, I am ve Islam from Cairo Ooitech Did very good afterservice and professional!

Ooitech invited us to China and learn much about solar panel making process!

They guided us in solar and installed machine during covid-19 by internet!

Thank you. Your inquiry was sent successfully!

ConfirmWare provides state-of-the-art and fully-automated production line solutions, scaled to fit any production with minimal human supervision.

Seamless integration of each section assures smooth and continuous construction of solar panels and modules. Its compact and flexible setup, on the other hand, allows the line to fit all factories with relative ease.

Keeping the entire operation consistent and secure is an intelligent detection and warning system. EL detection, Hi-Pot tester, IV, and other detection systems are in place to regulate every output. Monitor the production process with a seamless MES system, so you can check the flow anytime.

ConfirmWare's dedicated team of engineers listen to your needs and produce the turnkey production lines that boosts your productivity and automation degree.
