Hybrid Solar System Ensures Reliable Renewable Power for Pittsburg CA Landfill Biomethane Project

Become an Authorized Solar Electric Supply Contractor or Dealer and grow your business in the rapidly expanding solar power industry.

The dealer information includes the type of service offered and the location (city and state).

Solar Electric Supply, Inc. (SES) is America's oldest wholesale solar distributor and a premier provider of solar energy products. Founded with the vision of making solar power accessible and affordable, SES has established itself as a trusted leader in the renewable energy industry. We are committed to providing high-quality solar solutions for residential, commercial, industrial, and remote applications. Our comprehensive product offerings come exclusively from partnerships with established manufacturers, ensuring our customers receive industry-leading technology and support.

This commitment to quality, coupled with our unwavering dedication to customer service, has made SES a preferred choice for solar installations across diverse sectors. As pioneers in the field, we leverage our extensive experience to deliver reliable and innovative solar solutions. Whether you're looking to power a home, a business, or a large-scale industrial project, Solar Electric Supply is your go-to partner for all your solar energy needs.

SES provides a broad selection of solar panels, inverters, mounting systems, and energy storage solutions from industry-leading manufacturers.

Our expert team provides comprehensive solar design services, including:

From grid-tie to off-grid, residential to commercial, we provide tailored solar solutions to meet your specific energy requirements . Our offerings include:

Technological advancement has given rise to portable and eco-friendly alternatives to traditional gas and standby generators. One such renewable power solution is the Jackery Solar Generator, which is ideal for providing solar power to charge outdoor and household appliances.

Solar power is a renewable form of energy used to produce electric or thermal energy. Solar energy is free,
