

Solas online account

Solas online account

SOLAS is an online system designed to streamline the leave application process for DOE employees. SOLAS makes it easier to apply for a leave of absence and upload the necessary supporting documentation. The link to access SOLAS online is <https://apps.schools.nyc/solas>.

For more information about using SOLAS, see the SOLAS FAQ page here:<https://>

SOLAS manages 21 Construction Skills programmes, 14 Quarrying Skills programmes and the Safe Pass programme - all designed to improve health and safety and ensure sectors have access to a workforce with leading-edge construction and quarrying skills.

Safe Pass is a mandatory one-day health and safety awareness programme.

The aim of the programme is to raise the standard of safety awareness in the construction industry and to ensure that, over time, all site personnel undergo basic health and safety awareness training to enable them to work onsite without being a risk to themselves or others who might be affected by their acts or omissions. Candidates who successfully complete the programme will receive a Safe Pass Registration Card.

Construction Skills Certification Scheme (CSCS) programmes provide for the training, assessment, certification and registration of non-craft operatives, providing the knowledge and skills needed for occupations within the construction sector.

The scheme was developed following detailed consultation with social partners (Construction Industry Federation and ICTU), the Health and Safety Authority and specialist working groups to identify the training needs and occupational standards required for a range of occupations in the construction sector.

The Quarries Skills Certification Scheme (QSCS) programmes provide for the training, assessment, certification and registration of non-craft operatives providing the knowledge for non-craft operatives in the quarrying sector.

The Quarries Skills Certification Scheme was developed following detailed consultation with the social partners (Construction Industry Federation and ICTU), the Health and Safety Authority and specialist working groups. The consultation focused on identifying the training needs and occupational standards required for a range of occupations in Quarrying.

What is the Alternative Safepass renewal
The new Safepass renewal test is designed to allow those who have previously completed the classroom-based programme, to renew their Safepass card by completing a computer-based test in an approved Pearson VUE test centre.

Solas online account
