S5-GC(25-40)K three-phase series string inverter adopt 3/4 MPPT design to provide a more flexible configuration scheme with a smaller environmental impact rate and higher generation efficiency. Whose operation is so quiet, like a whisper, thus creating a more comfortable and friendly working and living environment.

Supports export power control

Supports RS485, WiFi, GPRS

Wide voltage range and low startup voltage

AFCI protection, proactively reduces fire risk

Intelligent string monitoring, smart I-V curve scan

Globally recognised branded componentry for longer life

Supports high power modules for lower installation costs

3/4 MPPT design, supports multiple orientation system design

Scan to register on SolisCloud, supports remote upgrade and control

Night time PID recovery function, increases overall system yield (optional)
