Clean Energy Jobs are Powering Midwest States. Check out Clean Jobs Midwest&#8217;s reporting on solar employment stats in your region.

The topic of workforce development is near and dear to our hearts at MREA. We started providing training in solar PV, solar thermal, small wind energy, and energy efficiency in 1990. We were one of the first accredited solar training programs in the country and still maintain accreditation with the Interstate Renewable Energy Council to this day. For over thirty years we've committed ourselves to offering the most accessible, affordable, and market-relevant solar training and today more than 600 individuals a year utilize our training to get a foothold in the industry, earn certifications, and sharpen their skills.

To explore the needs, opportunities, and challenges to meet the workforce needs of the energy transition, we talked with Richard Lawrence, Program Director with the Interstate Renewable Energy Council.

The Midwest Renewable Energy Association (MREA) is a non-profit organization with the mission to promote renewable energy, energy efficiency, and sustainable living through education and demonstration.

WASHINGTON, D.C. -- Companies across the United States are investing in record-levels of solar and energy storage to power their operations. According to the Solar Energy Industries Association's (SEIA's) new Solar Means Business...

BOSTON, Mass. -- Today the Massachusetts Legislature passed Senate Bill 2967, critical bipartisan legislation that addresses key challenges facing the solar and storage industry in the Commonwealth. The bill now goes to Governor Maura Healey's...
