The Sungrow 12.8KWh LPF Battery, also known as the SBR128, is a high-capacity lithium iron phosphate (LiFePO4) battery designed for energy storage systems. This battery is specifically engineered to provide reliable and long-lasting energy storage solutions for residential and commercial applications. The Sungrow 12.8KWh LPF Battery provides a reliable and scalable energy storage solution, enabling users to reduce their reliance on the grid, increase self-consumption of renewable energy, and have a backup power supply during emergencies. It is a high-quality and efficient choice for residential and commercial energy storage needs.

Sungrow's SBR128, a high-performance and flexible energy storage solution. With its safest LFP cell chemistry and stackable design, it offers up to 25 kWh storage capacity. Experience easy installation, cable-less structure, and compatibility with Sungrow SHxxRT inverters. Enjoy efficient charging, 100% usable energy, and extensive safety features.

Due to high demand some quantities may be limited.

Brand: Sungrow Item Code: SBR128-5.0 KitSKU: SG-K05120

Sungrow Power Supply Co., Ltd. ("Sungrow") is the world's most bankable inverter brand with over 224 GW installed worldwide as of 2021. Founded in 1997 by University Professor Cao Renxian, Sungrow is a leader in the research and development of solar inverters with the largest dedicated R& D team in the industry and a broad product portfolio offering PV inverter solutions and energy storage systems for utility-scale, commercial, industrial, and residential applications, as well as internationally recognized floating PV plant solutions. With a strong 25-year track record in the PV space, Sungrow products power installations in over 150 countries.
