

Sunpower 250 watt solar panel

Sunpower 250 watt solar panel

SunPower Maxeon panels deliver more energy for your money and greater certainty for you.

SunPower Maxeon panels perform better and last longer in unpredictable weather and all climates.

No other panels combine powerful performance and sustainability like SunPower Maxeon panels.

By submitting your information to Maxeon Solar Technologies, you accept our Terms of Use and Privacy Statement.

Your solar panel choice matters.

Maximise your savings and enjoy the peace of mind that comes with solar's top durability, reliability and efficiency,¹Based on datasheet review of websites of top 20 manufacturers per IHS, as of January 2020. all backed by the industry's leading warranty.²Based on October 2019 review of warranties on manufacturer websites for top 20 manufacturers per IHS 2019.

Record-setting SunPower Maxeon panels ensure that you have the very best solar for your home or business.

SunPower Maxeon solar panels are designed to be different, and proven to be better across more than five cell generations, 3.5 billion cells and 33 million panels, even in the harshest of conditions. Conventional solar cells lose power over time because of corrosion and breakage. A recent study of EU solar power plants uncovered that 41% of field failures were caused from issues surrounding the panel, such as browning and cell cracking, PID, delamination and defective backsheets.*Lillo-Bravo, et. al. "Impact of Energy Losses Due to Failures on Photovoltaic Plant Energy Balance." Energies. 2018. The unique design of Maxeon solar cells eliminates many of these causes of conventional cell failures. So your panels--and savings--continue to deliver. Year, after year, after year.

Invest with confidence, knowing that SunPower Maxeon panel quality is proven. In actual field testing across 8 years and 800,000 panels at 264 sites, SunPower Maxeon solar panels demonstrated the lowest degradation rates in the industry,¹Jordan, et al, "Robust PV Degradation Methodology Application" PVSC 2018 and "Compendium of Photovoltaic Degradation Rates" PiP 2016.almost 4x stronger reliability than conventional panels.

And more reliability means more savings.

SunPower Maxeon panels were recognized as a Top Performer in the 2021 PVEL PV Module Reliability Scorecard.Based on data from its Product Qualification Program (PQP), the PVEL Scorecard highlights the

Sunpower 250 watt solar panel

exemplary reliability performance of solar panel manufacturers worldwide.

The patented metal foundation of SunPower Maxeon cells allows them to bend under tough conditions where others break. And SunPower Maxeon panels are proven, with an expected useful life of 40 years¹ SunPower Module 40-Year Useful Life," SunPower white paper. 2013. and a return rate of less than 0.005%.
