Top 10 solar power banks

If you've been looking to purchase a power bank, chances are a solar power bank has at least tempted you. And why not? Power stations and solar panels are rapidly taking over the energy landscape, from electric cars to energy-independent, single-family homes.

Here are the best solar power banks, many with added features such as wireless charging, waterproof exteriors, and built-in flashlights. The Rundown. Best Overall: QiSa 38800mAh Solar...

To avoid such situations (or at least be prepared for them), get one of the best solar power banks. We've gathered 26 products and scrutinized them to find 11 best models that money can buy. On the top of our list is the GoerTek 25000mAh Battery Solar Power Bank.

When it comes to a lightweight, smart way to stay charged on-the-go, you can't go wrong with the Solargaard power bank - making it my top pick for the best solar power bank overall. It holds up to five charges, so you can be sure you won't end up with any dead devices, no matter where you are.

Home & Electric & Solar Power

We've gathered 26 products and scrutinized them to find 11 best models that money can buy. On the top of our list is the GoerTek 25000mAh Battery Solar Power Bank. For our research, we've looked at the battery capacity as you want a power bank that can charge your phone multiple times. The next factor is the outputs available as you want to be able to charge multiple devices at the same time. Finally, the water resistance rating, dimensions, and weight were also taken into account as you want a power bank that is portable and convenient.

More features: built-in 36 LED lights with 3 modes, comes with a carabiner, USB cable, LED indicators

Here comes the best waterproof solar power bank, the GoerTek solar charger! This device features an excellent battery with 25,000mAh capacity, which will help you recharge your phones and gadgets. To give you a hint of this battery's power, it can charge your Galaxy S9 Plus for 5.7 times or your iPhone XS for 7.4 times before needing a recharge.

We love the fact that it allows us to charge our gadgets all at the same time with the 3 USB ports provided (1A, 2A, 2A). This solar power bank is also IPX6 rated. This means that it handles downpours easily without getting damaged.

Beyond its battery capacity, GoerTek solar power bank is made with ABS environmentally-friendly material. It is solid, durable, and long-lasting. Additionally, it boasts the strongest and brightest flashlight. It is equipped

with built-in 36 LED lights, useful for brightening up anything and everywhere. Unfortunately, the power bank is quite big.

More features: wireless charging, dual LED flashlights, shockproof, dustproof

This product received the best value nomination due to its fast-charging capabilities. It takes around six hours to get fully charged, and the power can recharge mobile devices multiple times. For instance, it charges the iPhone 7 Plus up to 2.2 times, the iPhone X up to 2.3 times, and the iPhone 8 up to 3.5 times. Additionally, the solar phone charger has a portable compass kit and a bright dual flashlight, making it ideal for outdoor activities such as cycling, fishing, camping, hiking, and beach visits. Finally, we loved the fact that the item depends on multiple power sources.
