

## Vanadium cube

) sertBefore( ".main-nav" ); }); Where Art Meets Science

High purity Vanadium metal crystals 1 gram 99.95% pure sample in labeled glass vial. Pure Vanadium metal sample for element collection. Amazing colored crystal surface.

Amazing Vanadium metal standard density cube 10x10x10mm, 99.99% pure. Sample weighs 6.1 grams which is the density of the Vanadium metal element. This cube is amazing for any science classrooms, schools, universities and collectors. Pure Vanadium metal cube for element collection.

Pure Vanadium metal crystals for element collection, display and laboratory.

High purity Vanadium metal rod 99.95%, pure element 23 V sample. Pure Vanadium metal rod for element collection.

Amazing keychain with a beautiful Vanadium metal crystals in it! This unique element keychain is the perfect gift for any science lover.

Product Number: All applicable American Elements product codes, e.g. V-M-03-CB, V-M-035-CB, V-M-04-CB, V-M-05-CB, V-M-02-CB, V-M-025-CB

Relevant identified uses of the substance: Scientific research and development

Supplier details: American Elements 10884 Weyburn Ave. Los Angeles, CA 90024 Tel: +1 310-208-0551 Fax: +1 310-208-0351

Emergency telephone number: Domestic, North America: +1 800-424-9300 International: +1 703-527-3887

Substances CAS No. / Substance Name: 7440-62-2 Vanadium Identification number(s): EC number: 231-171-1

Description of first aid measures General information No special measures required. If inhaled: Seek medical treatment in case of complaints case of skin contact: Generally the product does not irritate the skin case of eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. If swallowed: If symptoms persist consult doctor rmation for doctor Most important symptoms and effects, both acute and delayed No data available Indication of any immediate medical attention and special treatment needed No data available
